The Difference is
Kleer

Our Company (SSWS)

Southern States Wastewater Systems

At Southern States Wastewater Systems we value quality, service and reliability. We desire to be the leader in our industry and set a bench mark standard by keeping up with innovation in products and provide a satisfying customer service experience.

Business Philosophy

Our business philosophy is to provide a high quality product and reliable service for customers - to offer business solutions to our clients right from the beginning of the process to ongoing support - **A True 'One Stop' Shop.**

History

We are a family owned company based in Victoria and have been operating in this industry for almost fifty years.

We have company members that bring combined expertise and experience of over 75 years to our business and involve three generations.

We are passionate about what we do and always want the best outcome for our customer.

Mission/Vision

We want our expertise in the industry to make the difference to your experience as our customer.

We will continue to improve our approach through increased knowledge and skills. We endeavour to seek, promote and use innovative products and advances in technology to increase the overall customer experience and ensure a greener future.
